

# Art Museum Partnership MEMBERSHIP SUPPORT

Join your colleagues to meet, engage, learn and network.

The mission of the Art Museum Partnership and its programs is to identify and provide educational opportunities for professional development and sharing information, resources, and collections among nonprofit art museums. These initiatives were established by leaders in the art museum community primarily to benefit the small to medium-sized institutions that represent approximately ninety-percent of the museums nationally. However, larger museums are also encouraged to participate in this vital exchange. Membership support provides an important investment to continue our current Directors Forum program and develop additional initiatives like our regional seminars.

Name	Title
Museum
